Product highlights

SmartTouch Contour-Following System
The SmartTouch Contour-Following System allows the entire head of the shaver as well as the individual shaving heads to move, enabling them to closely follow the curves of your face and neck. For a perfectly close shave, even in the difficult to reach areas.

Speed-XL shaving heads
The advanced Speed-XL shaving heads provide 50% more shaving surface for a faster shave. They have more blades to catch more hairs in one stroke, giving a smoother shave. The shaving heads also have more holes to catch even the shortest hairs for a closer shave. *compared to standard rotary shaving heads*

Personal Comfort Control
Personal Comfort Control adapts the shaver to your skin type. Select the 'Normal' setting for a fast and comfortable close shave. Select 'Sensitive' for a comfortable close shave with maximum skin comfort.

Super Lift & Cut System
Dual blade system: first blade lifts, second blade cuts for a comfortable close shave.
